southeastern massachusetts

dear ywca family &

It is my pleasure to present to you the annual report for the YWCA Southeastern Massachusetts for July 1, 2010 - June 30, 2011. This year has been a great one for the YWCA as we began the historic celebration of the 100th Anniversary of our organization.

In preparation for this milestone, YWCA board, staff and volunteers embarked on an epic journey through our past. Thus far, this experience has been one of discovery and amazement. I am proud to say throughout the last 100 years, the YWCA has made a difference in the lives of women, girls and their families. To me, that is what the YWCA is all about; continuing to make a lasting impact on our community by meeting their contemporary needs.

For the last century, women from all walks of life have made their way through the various programs and services of the YWCA. As we review our rich past, I am amazed

to learn about the many strong, empowered and independent women that built the foundation of the YWCA Southeastern Massachusetts. They laid the groundwork for the YWCA that we have today in 2011. Many programs and services have come and gone and several have changed to adapt to our current environment, such as after-school programming for children; gender-specific programming for girls; leadership development programs for women; racial justice and economic empowerment programs; advocacy; safe and secure housing for women; job readiness and women's health. These programs have taken many forms throughout the last 100 years, but have remained constant fixtures at the YWCA.

Over the next fiscal year, July 2011 - June 2012, we will continue to celebrate our 100th birthday. Our "Under One Roof" Capital Campaign is in its final stages as we will complete the construction drawings that will make our project "shovel ready." In June 2011, we began the restoration project for our east portico. As of today, this project is complete and looks wonderful. This brings us one step closer to breaking ground on our building addition in 2012.

I am always truly amazed by the wonderful people who I work with on a daily basis and I sincerely thank the YWCA board, staff, volunteers, members and interns that helped make this year absolutely incredible.

friends,

The YWCA Southeastern Massachusetts Board of Directors invites you to review the annual report for the period, July 1 2010 to June 30, 2011. It has been a year of reflection, as we celebrate our 100th Anniversary, and as we look back at our achievements, we are pleased to report that fiscal 2011 was a year of continued improvement and progress. Over the past ten decades the YWCA has been influenced by the changing dynamics in America as well as here in Southeastern Massachusetts. We continue to follow our mission and live up to the YWCA's reputation of leadership and service to the community.

As in past years the annual audit of our financial statements was in keeping with professional standards and reflected the diligence of our Executive Director, Gail Fortes and the financial staff. Overall, our solid performance for the year reflects a dedication to working within a balanced budget,

while looking to increase revenue.

The Investment Committee continues to work with our financial advisor and our portfolio continues to increase; investment income continues to rise and we have a balanced and healthy portfolio. Core committees have fulfilled their obligations and the Executive Committee continues to monitor the progress of the Capital Campaign. Of note, the Membership Committee has been developing membership benefits and the future will include membership discounts for area merchants and vendors. Our future endeavors will include the development of the YWCA Southeastern Massachusetts, 2012-2015 Strategic Plan. Our next annual report will include our new goals.

On the regional level, the Board of Directors hosted the YWCA New England Regional Board of Director meeting. Attending was Gloria Lau, Interim CEO of YWCA USA. Nationally, Executive Director Gail Fortes and I attended the YWCA USA General Assembly in Washington D.C. as voting delegates. The three day event included a "Day on the Hill" advocating for Community Development Block Grants and the continued advocacy of YWCA mission-based public policy priorities.

An incredible one hundred year milestone for the YWCA Southeastern Massachusetts will culminate in the next few months. I hope the past few months of 100th Anniversary news, events and publications has helped you focus on the pride of YWCA membership. Have a great New Year.

Jan Baptist
President

testimonials

wellness for women & girls

Ms. Azevedo joined the ENCORE^{plus} program three years ago. She was diagnosed with breast cancer shortly after arriving from Puerto Rico. She was not familiar with the area, she did not speak the language, and the only family she had in the area was her deaf son. She was recommended to the YWCA Southeastern Massachusetts by a hospital social worker. Shortly after being diagnosed with breast cancer, she was also diagnosed with leukemia. The YWCA was able to assist her in several areas. She was not familiar with the area; therefore, the YWCA had to teach her how to use public transportation by traveling on the bus with her. She could no longer work, so the YWCA had to apply for disability for her. Furthermore, because she was no longer able to work, the YWCA had to find public housing for her. The YWCA helped her find services for her deaf son. She needed blood transfusions every month for the first year of her illness and then every other month until the day she died. The YWCA transported her to St. Luke's hospital for her blood transfusions. The YWCA applied for PT1 (Medicaid transportation), but often she was too sick to go to her appointments by herself, so the YWCA still had to transport her. Often times only phone translators were available, and she had a hard time understanding them; therefore, the YWCA had to be available for translation.

On May 6, 2011, Ms. Azevedo lost her battle to leukemia. Her daughter came from Puerto Rico, when the doctor said the end was near. Her daughter notified the YWCA staff that her mother had passed on, and asked the YWCA about her mother's funeral plans. Ms. Azevedo did not want to burden her family. She knew that it was only a matter of time, and she had asked the YWCA staff to help her with the funeral arrangements. The YWCA helped Ms. Azevedo pre-arrange her funeral. Her daughter was able to return to Puerto Rico with her mother's ashes. Before returning home, her daughter tearfully embraced the YWCA staff who cared for her mother, and thanked them for their compassion in caring for her mother for the last three years of her life.

leading ladies

"The Leading Ladies program has given me an opportunity to become a leader in the women's movement. My greatest accomplishments thus far, have been achieved by building confidence in myself and working to enhance my community service and leadership skills. I've had the opportunity to attain those skills from the influence of the many powerful organizations within my very own neighborhood - the YWCA being one of them. My long-term goals include empowering women by giving them the same opportunities that I have had. Therefore, I sought a program where I could spread the word...the YWCA was an obvious perfect fit.

The Leading Ladies was formed by a small group of women and has now grown into an initiative that provides skills training, leadership positions and community activism. These three targets are key to creating dynamic individuals. As the Chair of Leading Ladies, it is an honor to help other young women find outlets for personal growth. In addition, I continue to grow myself, learning what it is like to be a true leader and a resource for those who are looking to succeed. Today's young women are the leaders of tomorrow. It is programs like this that will make the true difference for our future." --Ashley Bendiksen

young women's leadership development and internship programs

"I miss the YWCA! I recently moved to Salisbury, MA and one of the first things I did was look up the nearest YWCA, which is the one in Newburyport. I also just recently joined the Leading Ladies on Facebook. It's nice to see that the group is still together! I plan to continue being involved with the YWCA here in Newburyport. The organization is very special to me because as you know my mom used to work at the YWCA of Greater Lawrence. Thank you again for taking the time to show me all that you have. When I reflect on my experience at the YWCA, I am amazed at how much I was involved and how much you allowed me to be involved in the organization. I just graduated with a BA in Psychology and I plan on going to graduate school.

I had a great experience at the YWCA not only academically, but personally as well. I feel like I learned a lot about the organization itself and gained a lot of great skills, such as basic clerical work, communication with professionals, and event planning skills. In the 30 Under 30 program, I learned valuable information in the leadership workshops and about the history of the YWCA. Personally, I felt like I was empowered just as the YWCA states in the mission! I felt more confidence after all of those calls to the local businesses around the New Bedford and Dartmouth area and a sense of leadership when working independently on the Sweet Indulgence event. I also feel like I made a difference in the community when volunteering at the different events, such as the Red Dress Fashion Show and Week Without Violence. Thank you." --Rosita Maeks-Anderson

widowed persons program

"I needed comfort and support, a time to cry and a time to laugh. I have received all that. I can be better today for it. I have grown so much since I started here and I've met some wonderful people. Thank you and please keep the program going." --P.C.

"Through the help of the group, and the facilitator, I've learned to control my anger. It is not gone, but I've been able to use it in a more positive way. Without the help of the group, I do not think I would have made it." --S.J.R.

"Thank you for having someone "s" who will listen, and understand, because they are going through the same thing. They are *compassionate* because of the pain of grief they too feel. They are people who give out with their hands, and hearts to each other. It's great to know we are not alone." --R.S.

medical transportation services

“My doctors are all far away. Without this service I wouldn’t be able to go. This service is deeply needed and appreciated.” --Mrs. Gracia

“For anyone who is in the same situation as I, your service is invaluable.” --Mr. Allen

“I think the YWCA does a wonderful job for people of my age. I use a walker and this program has been a great help to me.” --Mrs. Vieira

“I am 93 and a half years old and still going strong thanks to you.” --Mrs. Pineault

“I don’t know how I would get to a doctor if you didn’t have this service. Thank you very much.” --Mrs. Sylvia

“This program has been a blessing for me.” --Mrs. Atton

“Good thing we have places like the YWCA.” --Mr. Silva

ywkids school age program

“Hi, my name is John. My son has been attending the YWkids after school program since he was 5 years old. He is now 12. My son has a learning disability and requires special attention, which the YWkids has been so helpful and caring to his needs, assisting him with homework and giving him one-on-one service, as he needs it.

Being an only child, my son really enjoys the YWkids, as this is his means of socializing with peers his age. He gets to play, learn and do lots of cool things, he tells me.

Earlier this year, due to the economy, I was not working enough hours to remain qualified for the income eligible slot that I was currently in with the YWkids. I was stuck between a rock and a hard place because I needed to work to support my family and continue school for our future, but without daycare I wouldn’t have been able to do so, which becomes a vicious cycle.

The YWkids staff did all they can do to help me continue childcare services for my son, giving me unlimited resources and different avenues to explore. The YWkids was successful in their attempts to help me, in keeping my services. My son is now able to continue enjoying all that the YWkids has to offer. Thank You.” --John S.

“My summer at YWkids was great because I got to visit some places I have never been before. Some of the field trips were cool. This summer I got to make arts and crafts projects to take home. We visited seven countries! I learned the capitals of the countries and their flowers.” --Lee

“My summer was great, the wind blew. How I would like the go-cart racing, how I like the beach, the zoo, the park and all the field trips too. Summer I see you blow like the wind, back to school. I hope the wind blows you away to summer again. Goodbye summer, the wind blowing, school here I come!” --Billois

“Hi, my name is Dominique and I am ten years old. I have been coming to YWkids for about three years. The reasons I think we need a new building for the child care are: it’s cold in the winter; there are too many poles on the main floor so we don’t have an open area to use for a gym; the paint is cracked and the ceiling sometimes leaks water; the cement outside is cracked, and there is no grassy area to have picnics outside. These are just a few of the reasons, I think we need a new building. Even though we need it, I am going to miss this building because I’ve made a lot of friends and memories here. My favorite memories are when I met my best friend Nikie, when we get to dress up in costumes, and when we had a fire alarm in the pouring rain and thunder storm. Thank you.” --Dominique

residential services

“Dear ladies of the YWCA, I would like to thank all of you for providing me with a home at A Woman’s Place for the past 5 years, which has given me a chance to have a real and productive life. It has given me the strength that I was in need of. The time has come for me to move forward and become an independent and responsible woman. Your program has given me the belief in myself to do it. There is so much more I could say but as you all know I am not much for words. Again, thanks so much for putting up with me all these years.” --A.S.

tween 2 teen/girls giving and growing

“I went to Tween 2 Teen for the first time in January. At first, I was very shy and did not like to talk to the other girls. Ms. Stephanie and Ms. Kaitlyn made me feel comfortable and would make me laugh. After a while, I really liked being with the other girls. We learned about babysitting and manners and put on a fashion show at the end of the year. I really liked dressing up and going out to eat for the etiquette dinner. I felt so grown-up!

When school got out, I asked my mom if I could go to Girls Giving and Growing. She said yes, even though she had to drive me a long way to get to the YWCA! I hope I can do both programs again next year too.” --Samantha

celebrating...

For 100 years, women of all ages and backgrounds have walked through the doors of the YWCA Southeastern Massachusetts, incorporated in 1911 as the Young Women's Christian Association of New Bedford.

1911

Total Served	4,855	4,034

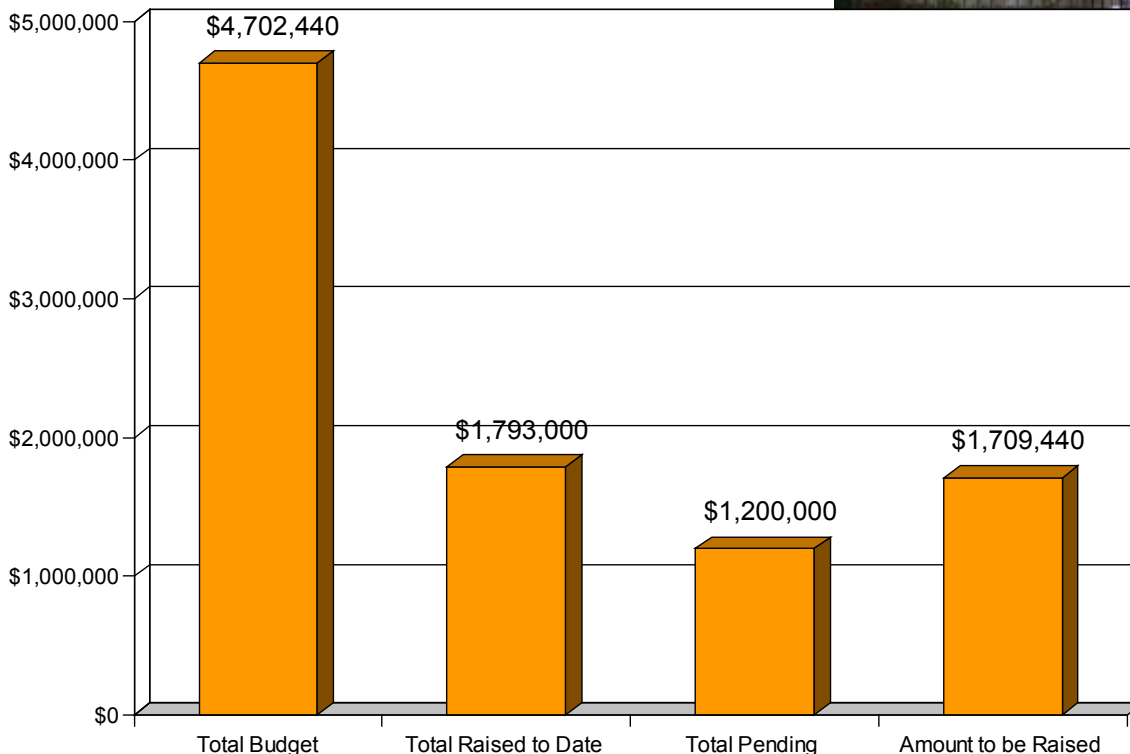

capital campaign

Today...the Levi Standish House stands as a magnificent piece of its city's history that houses the YWCA Southeastern Massachusetts.

Tomorrow...the Levi Standish House will remain a stately part of that history, the community and the YWCA Southeastern Massachusetts, as it grows and expands through the construction of an impressive building addition that will house YWkids School Age Program, a teen center, a woman's resource center, multi-purpose rooms, and residential housing for women.

YWCA is asking you to support the necessary funding to accomplish this lofty, but attainable goal of bringing all of its important programs and services *Under One Roof*.
